

HOW TO TURN THE INTERNET **INTO YOUR** **PERSONAL POT OF GOLD**

This is a free ebook.

If someone asked you to pay for it, ask for your money back!

Feel free to forward this to your friends.

MAKING MONEY ON THE INTERNET

I don't know about you but I am really tired of all these adverts we receive in our email for "Make Big Money", and all the "Foolproof Systems" when in actual fact, the only people that make the big money are the people selling these things (and we are real fools if we buy the stupid systems!)

I recently downloaded an e-book about making 700 dollars in 7 days. Yeah right.

It is about:

- EBay,
- Opt-In email marketing,
- affiliate marketing,
- bum marketing,
- affiliate marketing (again),
- creating an e-book,
- freelance writing and
- viral marketing with a managed membership site.

In other words, it was mostly of no use to us here in South Africa.

So, as I've been online since 1996 and own various websites, I decided to set out exactly how you can make money online here in South Africa.

And I'm not going to charge you a cent for it. 😊

What are friends for??? 😊

www.makemoney.co.za

Two cautionary notes though...

Nothing in life is free. You have to spend *SOME* money to make money; and
You will have to put in some effort.

I'm sure you will find something here that you can do and who knows ... maybe because of this free e-book, you'll be firing your boss and working for yourself in the future! Of course if you then decide to donate some money to my "Running Away Fund", just mail me and I'll give you my banking details!

Happy reading!

Dianne

And of course here is your usual disclaimer:

Please do not be misled by claims that high earnings are easily achieved.
Success is more likely for people who learn communication and marketing skills through professional training and reading.
I may make a referral commission if you click on some of the links inside this document.

I wish you all the best!

ABOUT ME

I still have a day-job that pays (most of) my bills but I wanted extra income. The great part about my part time jobs is that I have extra paydays in the month! They really help!!!

MAKE THE TIME

Every one of us only has 24 hours in our day. Some of my 24 hours goes to my day job, some of it goes towards sleeping (and I like my sleep!), then there's household duties (like eating!) and I had to find some time for my part time things.

I decided I had to give up something to **MAKE the extra time** I needed to spend on my part time stuff. So I gave up TV. It's not that I just don't switch it on – I literally gave my TV away.

I admit that initially I missed the Sunday night movie, but I soon got used to it. I don't have the distraction of sitting down in front of the TV and thinking "let me just watch this" and next thing you know four hours have passed and it's bedtime and you have spent no time on your part time business.

There are three bonuses to this.

- You make money instead of becoming a couch potato;
- I'm sure I'm a happier person because I don't see all the negativity that's on the news! and
- You save money on the TV licence!

Of course you may not want to give up TV so maybe you'll have to get up earlier in the day or go to bed later in the evening or give up your lunch break to make the time for your business.

It is obviously all up to you!

Let's get started.

~ ~ ~ o o ~ ~ ~

BID-OR-BUY

There are various auction sites available in South Africa. My favourite is Bid-or-Buy.

Click here http://www.bidorbuy.co.za/jsp/Referral.jsp?ID=TF_User_118048&target=http://www.bidorbuy.co.za to have a look. NOTE: Click NOW on the link in the previous sentence so you can see the actual site as I talk you through it!

What are the secrets to selling on an auction site?

RESEARCH

You won't make a huge amount of money selling your unwanted junk. Of course you will make some money but unless you have a plan for obtaining more products, eventually you will just have an empty house and your business (and cash flow) will come to a screeching halt!

So first you have to research your market.

I recommend you do a search for the most popular items. In my search on 14 October 2009, the top 50 items on Bid-or-Buy were (in order of popularity):

1. Iphone	11. GHD	21. Omega	31. Camera	41. Guitar
2. Ipod	12. GPS	22. Watches	32. Mandela	42. Boats
3. Cars	13. Guess	23. Tv	33. Diamond	43. HTC
4. Ps3	14. Wii	24. Xbox	34. Garmin	44. Bakugan
5. Nokia	15. Laptops	25. N97	35. Golf	45. Nokia N97
6. Psp	16. Diamonds	26. Nikon	36. Xbox 360	46. Rhodesia
7. Laptop	17. Paintball	27. Rugby	37. Furniture	47. Sunglasses
8. Rolex	18. Rings	28. Tag Heuer	38. Samsung	48. Bikes
9. Canon	19. Sony	29. Seiko	39. Apple	49. Trailer
10. Blackberry	20. BMW	30. Shoes	40. Gold	50. Watch

Around mid 2009, a friend came across a hairdressing salon that was closing down and bought 4 GHDs from them with the original boxes. He took the GHD's to get them serviced (and also to check that they were

the genuine article as there are tons of Chinese fakes floating around) and then gave the GHD's to me to sell for him.

I took pictures (only with my cellphone so they weren't the greatest pictures!) and uploaded all 4 GHD's onto Bid-or-Buy on the Sunday. By Tuesday morning, all 4 were sold. It was a substantial profit. If you know of any other hairdressing salons closing their doors, please let me know!!!

Looking on the Popular list above, GHD's are number 11 so I can highly recommend looking at the popular list and then sourcing products.

Of course things change often so don't rush out and buy a whole bunch of GHD's. I checked back recently and they GHD's were no longer number 11 and were way further down the list.

OPPOSITION

Once you have chosen your product or industry, research your opposition!

Have a good look at:

- How many other people are selling in your industry
- Look at their prices
- Compare their products to yours
- Compare their prices to yours
- Look at how they market their products
- Look at their ratings.

INVESTIGATE YOUR SHIPPING OPTIONS

Measure and weigh your product and then investigate the various shipping options. Here in South Africa, we have the post office with parcel post and insured parcel post (recommended!) or Speed Services Counter to Counter (also recommended although it is more expensive). Give both options for the buyer to choose.

BECOME THE CUSTOMER SERVICE KING!

Ensure you answer questions promptly! Don't put something up for auction and then go away for two weeks. People on the internet want INSTANT response! Make sure you respond quickly to their questions.

You can also follow up with special offers, other freebies etc.

MARKET YOURSELF

There are tons of places advertising cheap business cards. Buy them! Always keep your business cards with you and hand them out to everyone! I have handed out business cards while standing in a queue at Checkers! Ensure they have your phone number, email address and your bid-or-buy link.

AFTER SALES SERVICE

You can also mention in your bid-or-buy page the kind of after sales service and guarantee you provide. It all adds to your credibility.

BID-OR-BUY TRANSACTION MANAGER

If you don't have your own product (or don't want to outlay money buying products), you can become a Transaction Manager.

This is the least risky method (although not as profitable as making all your own profit) but you will have to find some good products.

The advantage is that other people own the product so you don't have to buy anything up-front and outlay any money. You don't have to worry if the product doesn't sell! You simply handle all the details of the transaction for a transaction fee.

NEWSPAPER CLASSIFIEDS

A good place to find goods to sell is in the newspaper classifieds. Choose a product that you think will sell well on Bid-Or-Buy and then call the person that placed the newspaper advert to find out if they have sold the item. If not, tell them you would be happy to help them sell any item online for a fraction of the cost of a newspaper advert. There is no risk because you will only be paid if the item actually sells.

YOUR ACTION PLAN

Create a seller's account. Go to

http://www.bidorbuy.co.za/jsp/Referral.jsp?ID=TF_User_118048&target=http://www.bidorbuy.co.za
to sign up.

Click on the Join Now! At the top of the page.

This will take you to the following page:

Complete all the details and make sure you are over the age of 18!

You now have a user account. \

This is my page. I have advanced seller status. Initially you won't have advanced seller status until you register your credit card with them.

Now you have to decide whether you are going to create an "auction" or a "Buy Now" item.

Auction is when the price can either just go up and up and up, or you will have only a few bids and the item will sell for next-to-nothing.

Buy now is when you decide the price you want for the item and you list it at that price. When I sold the GHD's, I sold them as buy now items.

The next step is to select the category. As you can see, there are loads of categories! Make sure you choose the correct category as often people just browse through the categories.

The screenshot shows the 'bid or buy.co.za' website interface. At the top, there is a navigation bar with 'Home', 'Buy', 'Sell', 'My Account', 'Community', and 'Help'. Below this is a search bar with the text 'Enter keyword with 3+ chars. Competitively and must be in stock.' and a 'Select a Category' dropdown menu. The main content area is titled 'Please first select the category where you wish to bid your item.' and displays a grid of category links. Below the categories is a 'Specify Item Details' section with a 'Title' input field. The 'Thumbnail Image' section includes an 'Upload Thumbnail Image' button, a 'URL' input field, and a 'Switch to a different forum member' link. The 'HTML Editor' section is set to 'On' and includes a 'Description' field with a rich text editor toolbar and a 'Tip' about using the editor. The bottom of the page features a dark blue banner with the text 'www.makemoney.co.za' and a small image of a stack of money.

GOOD WEBPAGE

Don't just do a one-liner and expect a huge profit. You really have to market yourself and the product!

Ensure your text and page looks professional:

- A good, eye-catching title is critical!
- Upload good pictures that are relative to the product you are selling.
- Make sure you have pleasing colour combinations.
- Ensure the text is readable (not too big or too small).
- Format your text – make your headlines bold and indent your benefits so it is easy to read.

You can also increase the “perceived value” of your product by adding freebies like e-books etc with each order. (I have tons of e-books so email me and I'll send some to you!)

The image shows a screenshot of an online auction listing form. The form includes the following sections and fields:

- Condition:** Radio buttons for New, Secondhand, and Refurbished.
- Start Price:** Input field with R 0.00.
- Bid Increment:** Input field with R 0.00.
- Reserve Price:** Input field with R 0.00. A note below states: "The reserve price should be no more than 25.00% higher than start price."
- Market Price:** Input field with R 0.00.
- Quantity:** Input field with 1.
- Minimum Quantity per Day:** Input field with 1.
- Sellers Product Code:** Input field.
- Select Warranty & Guarantee Options:** A yellow header for a dropdown menu.
- Warranty:** Dropdown menu set to "Not Offered" and a "Remarks" text area.
- Guarantee:** Dropdown menu set to "Not Offered" and another dropdown for "Select Duration", with a "Remarks" text area.
- Select Listing Duration & Picket Options:** A yellow header for a dropdown menu.
- Listing Duration (max 21 days):** Start: Monday 19 October 2009 19:30; End: Monday 26 October 2009 19:30.
- Automatic Extension:** A checked checkbox with the text: "if there are last minute bids the auction end time is extended to give other bidders a few minutes to bid".
- Automatic Picketing:** A dropdown menu set to "Don't Picket" and a "Picket Count" dropdown.
- if this option is selected bidding fees and enhanced bid bidding fees apply for each bid.

PROMOTE YOURSELF

Of course once you have sold quite a few items on Bid-or-Buy, you will have a good rating and reputation and buyers will already trust you to provide exceptional service. This will help you promote yourself to other suppliers as a Transaction Manager.

Your selling points could be:

- It is my job to ensure you sell your item at the highest price possible, because my commission is dependant on the sales price!
In other words, if I manage to get a higher price, I earn more!
- I will answer all questions related to the product for you.
- I have an excellent camera and scanner and will make sure the advert is professional and well marketed.

Instead of a fee percentage of the sales price, you could also negotiate a "minimum price" the seller wishes to receive so that any amount over that minimum price is yours.

HOW TO EARN

Say for example you set up an arrangement with the following Suppliers:

- Computer Store for hard drives at R500 each
- Book Store for books at R80 each
- Jewellery store for rings at R200 each.

Your arranged fee might be 15%.

Qty	Description	Selling Price	Total Sales
10	hard drives	R 500.00	R 5,000.00
10	books	R 80.00	R 800.00
10	rings	R 200.00	R 2,000.00
TOTAL SALES			R 7,800.00
YOU EARN		15%	R 1,170.00

As the saying goes, wash, rinse and repeat! In other words, just go and do it again next week and the week after.... Etc.!

U-CARE

Right so most people have heard about Network Marketing or Multi Level Marketing (MLM).

A whole bunch of us have tried it as well (and usually failed!).

I tried a milkshake one, a cleaning products one and an insurance one. I failed at all of those (and ended up with a garage full of expired milkshake and enough washing powder to last me a few years).

I'm not saying those opportunities don't work. There are tons of people who are making a good living out of them. Those businesses just didn't work for me!

But being the stubborn individual that I am (ask any ex-boyfriend!) I kept searching for one that was right for me.

I have been involved in U-Care since October 200???. I like the fact that there is no "thing" that I have to buy every month or do "personal volume" and buy a ton of product each month.

U-Care's product is money.

I like money ☺

Most people like money!

I find it easy to talk about money!

I find it even easier to spend money!!!

Anyway, for a simple R150 donation per month, you help raise money for charity AND you help raise money for yourself! Don't they say charity begins at home???

You will only earn money if you introduce people to the business. (That's the "network" part of network marketing.)

ADVANTAGES

The advantages are:

- Most people can afford R150 per month.
- No buying and stocking and selling of products.
- No maximum age limit.
- People actually do like doing something charitable (and if they are able to earn some money at the same time, they like it even more).
- Members are able to see exactly where the money goes – the company is absolutely transparent and ethical.
- Payday is the 20th of every month!
- Lifelong income!
- The business is willable to your beneficiaries.

Although you will make some money if you introduce just three people, in order to make substantial money, you should aim to introduce as many people as possible on your first line. (That's the "work" part of network marketing.)

HOW TO JOIN

Join by completing the application form, which you can download at http://www.vision1000.co.za/appDN_FC.pdf.

Send it back to me. I will allocate you a membership number and forward your application to U-Care Head Office. I will also make you your own electronic application form and brochure. You are now in business!

The quickest way of building this business is simply to speak to people.

Everyone.

Your friends, acquaintances, hairdresser, lawyer, florist, doctor - absolutely everyone!!! It won't be for everyone but you never know who might be looking for an opportunity to make some extra money. Make your list of people and go through it. If you have 100 names and contact them all, **you will be highly successful in this business.**

HOWEVER ... do NOT try to explain this business. The best way to work this business is ask people if they'd like to earn some extra money. (They either say yes, maybe or "is it legal" but nobody has ever said NO to me!)

Then tell them this is an awesome business opportunity and you need to show them a DVD that will take 17 minutes of their time. Then show them the DVD. Alternatively, get them to a presentation. Mail me for the other presentation venue dates and times.

www.makemoney.co.za

I highly recommend you purchase the starter kit. It includes a manual, a folder and 6 application forms. It is good value for R150. There is also a DVD for R50. Let me know if you would like one. The manual is really useful as it also has Questions and Answers at the back of the manual. I went through them every week until I knew them off by heart. You will get asked those questions! If someone asks you a question and you don't know the answer, simply phone me or phone head office and they will tell you the answer. You can also order direct starter kits and DVDs from U-Care head office.

Regarding advertising (flyers, posters, adverts etc) you cannot put the U-Care logo on them unless you have had them approved by head office.

Until you get your own application forms in the starter kit, when someone fills in your application form, simply fax or scan and email to me. I have a stock of application forms and will allocate a number. When I receive a faxed application form, I allocate one of the numbers and then I send the fax application and the blank original numbered application form to Head Office. I will then notify you of the number and you can let your new person know.

I have also uploaded some documents/information on my diannesweb website. Just click on the link and it should open on your computer. You can then save where you want it.

REEVA

I sell Reeva Beauty Products for two reasons.

Firstly, I love the range. They are made entirely with natural herbal oils and are gentle enough for very sensitive skins. My skin has shown great improvement since being back on the products. I last used them when I was 21 years old (which is a "little while ago") and so I joined as an agent so I could get a discount on the products!

Secondly, Reeva gives her consultants the best commission! Commission works on a sliding scale from 25% commission up to a whopping 40% depending on turnover.

An interesting fact: some of the best Reeva Salespeople are MEN!

HOW TO EARN

So your quick way to make R1000 is to sell R3400 worth of Reeva Beauty Products.

You will earn R1020.00.

BMT

This is a business I have joined recently and I must say ... I'm very impressed!

Have a look at <http://www.diannesweb.com/makemoney>. The great thing is, it is really affordable at only R45 per month!!! (Soon to increase to R49).

The good thing is they have a 9 day free trial and you also receive some free ebooks with absolutely zero obligation.

I would suggest you have a look and sign up for the 9 day free trial.

Then you could join as a Silver member.

Your first subscription is the monthly subscription of R45 plus a once-off admin fee of R30.

Get at least 3 people to join and you receive a bonus.

It would then cover your subscription for the next month so basically you have a business up and running for just R75!

Most people can get at least 3 people to join and then when those 3 people get at least 3 people to join, your business pays for itself.

This is a South African company and what I really like is that it is all automated. There is a lot of free training and tons of information on how to get your business up and running.

www.makemoney.co.za

There are 3 levels of membership with 3 levels of commission.
You can start at the Silver membership and earn on 3 levels.
Once it is paying for itself, you can upgrade to Gold and earn on 6 levels.
The best of course is to be Platinum and earn on 9 levels.

I think it is an outstanding concept!

They are also planning on launching internationally later this year.

This is therefore and EXCELLENT reason to join now! You can start building the business, learn all their superb marketing tips and then go global! I have heard that when we go global, they will probably work on 10 US Dollars so the Bronze will then be around R75.00

STILL EXTREMELY AFFORDABLE!

YOUR ACTION PLAN

Log in now and join either on the 9 day free trial.
Get your downloads and learn about the business.
Then join as a Bronze Member.
You can now download all their marketing material.
Promote to your friends, family, doctor, lawyer, chemist, hairdresser.....
(I'm sure you get the picture!).
Start making money!.

CAR HIRE BROKING

I have successfully done car hire broking for years. I have a website which lists various car hire company rates. I market this overseas as I mostly cater for overseas tourists. I don't deal with bookings less than a week as I didn't find it very profitable – it was more of a mission to claim my commission than it was worth!

YOUR ACTION PLAN

Find a business where you can be a "middle man".

Approach the companies involved.

It will cost them nothing for you to promote their business.

When you refer the business to them, they pay you a commission.

ARTICLE WRITING

OK so I haven't personally done this but I heard of a "friend of a friend of a friend..." who made extra money writing articles.

Have a look at <http://beaguide.about.com/>

The summary is you can join as a Guide or join as a Contributing Writer.

The catch ... I didn't see any titles I could write about! I think there is a training period and it is certainly better to be a Guide as they get paid \$675 per month compared to \$500 for a Contributing Writer.

But you know what, for an extra R5000 per month, maybe you could just research a topic!

The following is taken directly from their website:

How are Contributing Writers paid?

About.com will offer Contributing Writers in their first two years a guaranteed minimum monthly payment of \$500. After two years, the guaranteed minimum monthly payment will be \$250. About.com also pays Contributing Writers by measuring pageview growth (month-over-month for Contributing Writers in their first year, and year-over-year every year after) with payment incentives for pageview growth. There is no cap on what you can earn the guaranteed minimums are offered as a safety net.

Are there any minimum publishing requirements?

Contributing Writers commit to publishing at least 12 pieces of content every month. These articles will be a mix of short- and long-form content (our flexible tools facilitate publishing everything from long-form articles to glossary pages). After more than 13 years working with About.com Guides, we know that this baseline will help new Contributing Writers grow their subtopics (and their earnings) more quickly by establishing a strong foundation of content that will garner a lot of repeat visits.

The Legalese:

All Contributing Writers are independent contractors and shall not be subject to the direction, control, or supervision of About.com regarding time spent or procedures followed in performing services hereunder.

However, About.com is the final decision maker in regard to the produced product and reserves the right to request modification and/or modify the product to ensure, among other things, that it complies with quality standards. All Contributing Writers are responsible for all tax liabilities emanating from their payments. Contributing Writers are not eligible for any benefits from About.com and waive any right to them.

Please note: compensation earned by other Contributing Writers is not a guarantee of any kind that any other Contributing Writer who meets the minimum expectations will earn that much, or any specific amount. About.com offers this information as a means of sharing with applicants the potential compensation that they may earn. About.com reserves the right to terminate a Contributing Writer's engagement and/or change the Contributing Writer compensation model at any time for any reason, notwithstanding any information contained in the engagement materials.

About.com Guide Compensation

How are Guides paid?

In addition to a base payment (guaranteed to be \$675 per month for Guides in their first two years, with a minimum of \$500 per month afterwards), About.com pays Guides by measuring pageview growth (month-over-month for Guides in their first year, and year-over-year every year after) with payment incentives for pageview growth. If your pageviews grow, you will never make less than \$675 per month.

Are there any minimum publishing requirements?

Guides in their first two years must publish four articles every month with gaps of no greater than 14 days between articles, and update their blog one to three times every seven days. We've found that these baselines help new Guides grow their sites (and their earnings) more quickly by establishing a strong base of content that will garner a lot of repeat visits.

How much do Guides typically make?

On average, a Guide in his or her first two years will make between \$675 and \$1,200 a month. The average Guide compensation is around \$2,000 a month, though many Guides make up to \$6,000 a month and beyond.

My final chapter is how to get paid over the internet.

Up until recently, South Africans could not receive money through Paypal.

So I had to look for some alternatives.
